Chris Scharf

Web Application Developer at Igicom

scharfie@gmail.com

Summary

I've had a love of programming ever since I was young, when I would spent countless hours trying out new ideas. Coupled now with all my experience, I'm very comfortable tackling new problems, troubleshooting and crafting elegant solutions. I learn fast, work hard, and strive for beautiful, testable code.

Experience

Web Application Developer at   Igicom

March 2008 - Present (7 years 5 months)

Web application architecture and development, server management, front-end development.

Web Application Developer at   West Virginia University
